Resubmitted with reference to the office note, dt. 20-9-51 and the C.E's note, dt. 3-12-51.

2. It has been decided that the C.E., two S.E.s and the Dir. of Technical Education or failing him one of the Principlas of the Engineering College nominated by him should form a selection Committee. Orders are requested which of the eight S.Es. may be addressed in the matter. It is for orders also w hether the S.E.s. and the Dir. of Technl. Education may be called in a joint conference to decide the set up of the question papers as also the examiners for the purpose.

For orders pl.

3. A question has been raised by some of the applicants as to whether there will be two different sets of papers for the D.C.Rs and for the B.E.s. and if not why all should not be granted uniform pay in the scale.

This question need not be amended.

Id.

It is presumed that there will be common questions of general nature for all. The questions will be genral in nature as no fixed syllabus as such has been prescribed . The difference in the pays offered will be maintained as such different pays are fixed with view to honour the better qualification vis-a-vis one required as minimum.

Questions will be common to all examiners and there will be appropriate standard for such examinations.

4. About 100 applications have been received so far. and some more are expected to be received. It is necessary to requisition suitable accomodation to hold the exam. It is proposed that steps may be taken to reserve some suitable place (say C.J. or convocation Hall) after the actual number of candidates appearing at the exam is known.

E.E.Presidency Dn. may be requested to make necessary arrangements. with report.

(i) There is a meeting of the examiners for the constitution Exam. for overseers on 2-4-52. I am not here on that day, so Shri S.K.Karandikar, who is a member on this committee should conduct the meeting.

(ii) This meeting is called mainly to discuss the standard of the examination. I am pers-onally of the opinion that the standard should be that of the question papers should be such as an average B.E. will be able to answer satisfactorily. That means that only the brightest of the B.C.Es will have some chance.

A meeting of the Selection Committee for the recruitment of candidates to the S.S.E. was held in the P.W.D., Sectt., on 2-4-52. The minutes of the meeting are put up The time table of the exam. is also put up for perusal.

2. The meeting was mainly called to discuss, as has been stated by the C.E., the standard of the exam. The C.E., is of opinion that the standard of the question papers should be such as an average B.E. will be able to answer satisfactorily. That means that only the brightest of the D.B.E.s. will have some chance. The Selection Committee differs on this point from the Chairman. The members have unanimously agreed that the papers should and need be such as a D.C.E. will be able to answer and that B.E. standard is too high. Orders of C.E. are requested whether the recommendation of the members of the Committee may be accepted.

3. The members of the committee recommend that they should not be either paper setters nor should they be examiners. They should however remain present at the Viva - Voce and may take decision on the final list of selected candidates on or after 15th May . The names of the examiners are mentioned by the Committee as at p . 3 of the minutes of the meeting. If the recommendation is accepted, the draft D.D.S put up may issue.

4. The Committee recommends appointment of a Chief Conducter and an Asstt. Conducor for conducting the exam. The Committee has named Shri D. S. Berkar, Under Secy. and Shri S. A. Moshi, Addl. Asstt. Secy. as Chief Conductor and Asstt. Conductr, respectively. The Committee further remarks that three Asstts. should be chosen by the Dy.Secy. to assist the Chief Conducters and the Asstt. Conductor.

The recommndation appears sound and may be accepted. The Dy. Secy. will kindly record his recommendation as regards the three Asstts. for the approval of the C.E.

(The services of two peons will be made available in addition).

5. The list of candidates, who wish to appear for the exam. is prepared and tabulated in the statement put up The candidates whose applications are accepted may be informed about the time-table, Seat No. and index of route to C.J.Hall etc., as per draft put up. The applicants, whose applications are rejected may also be informed as per draft put up.

(The names of the applicants, whose applications are accepted, will be arranged in an alphabatic order).

6. The Committee thinks that the minumum total remuneration for each examiner should be Rs. 100/-. It may be mentioned here that it has been already decided in consultation with the P. and S.D. and the F.D. that the examiners should be granted Re 1 for assessing marks to each ~~of~~ paper. It is for consideration whether the decision need be changed. No provision has been made in the G.R. for the Chief Conducter and the Asstt. Conducter as it was felt that the applicants will be few and it will not be so difficult to conduct the exam. without any extra assistance- The question may perhaps be considered hereafter and the F.D. may suggest suitable remuneration for the Chief and Asstt. Conducters.

7. The Chief Conducter will arrange for answers books, drawing paper, graph paper, ink and blotting papers etc. as proposed by the Committee.

Id/-
5-4-52.

I think that the standard of the Examination should be that for the pass B.E. because the D.C.E. standard will be rather low.

Id/-
5-4-52.

(i) The standard should be of an ordinary B.E.

(ii) The other proposals ~~of~~ 2 are for approval and the D.D.C. may issue.

(iii) About change in fee proposals may be put up.

(4) The candidates who are already serving in a particular Circle should be alloted to that circle.

If there are candidates more in number than that allotted to a particular circle, the surplus will be allotted to other circles.

A list showing the distribution of successful candidates (circles) should be prepared and put up for orders.

(5) The remaining vacanicies may be filled up by the S.Es by promotion.

(6) The total number of permanent posts should be distributed evenly amongst all circles including temporary circles ; the loan of such permanent posts being kept

in the permanent circles near by.

The Selection Committee held its meeting on Saturday the 7-6-52 and the first thirty candidates mentioned in the accompanying list have been selected by the C.E. for purposes of appointment to the guaranteed posts. As against the forty posts advertised, the Committee deemed fit to select only thirty candidates. The statement showing the number of vacancies in different Circles will be found at p. 17 ante. The Committee has recommended allotment of the thirty posts as indicated in para. 3 of the Dy. Secy's note, dt. the 8-6-52.

2. The Committee has further stated that the inter se seniority of those allotted to the same Circle should be fixed on length of service. It appears that the decision strikes at the very root of the principles for which the competitive examn. stands. The candidates, who are not selected this year may appear for the examn. next year (and if necy. during the following years) and it will be then embarrassing to fix their seniority on the basis of length of service vis-a-vis that of other new comers then. In the circumstances, it is for consideration whether the recommendation made by the Selection Committee in respect of the seniority may not be accepted.

3. Pl. see. para. 2(1) of the 'Notice' accompanying G.R., P.W.D., No. 2159/48, dated 30-1-52. Since none of the 57 applicants, who appeared in the examn. belonged to the Backwar Class Community, it is presumed that the question as regards filling up of the 8 posts reserved for backward classes does not arise.

Id/- 14-6-52.

4. The draft put up may issue after u.o.r. to the F.D.

Re- para. 2 above, I would like to submit that the seniority may be pinned in accordance with the rank in the competitive examination. It is a mere convenance that an outsider has not succeeded to come up in the ffirst 30 numbers. The competitive examination was held to select arrears as direct vermits. The candidates may be in Govt. service or not

Id/- 14-6-52.

I see no difficulty in implementing the decision of the selection committee that the seniority of the selected candidates should be the same as in the department. The following further rules will remove the difficulties pointed out.

(a) The seniority of candidates selected in a particular year will be fixed as follows:-

(i) Candidates already in service, will rank first. Their seniority for insense will be as per their standing in the department.

(ii) Candidates not in service will rank next. Their seniority intensee will be as per their rank in the result sheet.

(iii) Candidates promoted will rank next to (ii) above. Their seniority intersee will be as per their standing in the test.

(b) Candidates selected or promoted in a particular year will stand lower than the candidates selected or promoted the previous year.

I agree. Secy. (18.6.52)

The inter se seniority of candidates selected by exam. can be on basis or rank obtained above or on other basis (e.g. rank, past service i.e. experience etc.) Here the Selection Committee has recommended that length of service should decide the inter se seniority and not marks in the exam. This need present nn difficulty. The list as arranged in the order of seniority as recommended by the Com. and notified as the seniority list (witnout mentioning 'rank' in exam or leggth of service).

Resubmitted with reference to the office note, dt. the 13th June 1952 and the Secy's orders thereon.

2. The revised draft orders fixing the seniority of the candidates with reference to thei r respective dates of appointment are put up. It is respectfully submitted that befor the draft orders are finally approved, the following points may perhaps be considered.

3. According to the new list, candidates securing high percentage of marks have all gone down in the list since the persons securing low percentage of marks have become senior only because they entered service earlier. It will be seen that a D.C.E. candidate, who has obtained only 44% of marks (as against the percentage of 55 fixed for the eligibility to appear at the exam) has topped the list while a B.E. candidate who has obtained 74% of the total marks (as against the percentage of 45% fixed for the eligibility to appear at the exam has to take his rank at Sr/. No. 26. Similarly those who stood at nos. 2,3,4, by merit have to take their ranks at No. 5 18, 24 and 27, respectively.

These do not apply to the college & University examination
Id/-

4. Almost all D.C.Es. who have appeared and passed in the exam. have, according to the new list, come in the first 15 and the B.E.s have ranked in the next 15. This is obviously because of the fact that the diploma course is of three years, while those going in for B.E. exam. have to study for 5½ year after matriculation and hence the D.C.Es. can enter service three years earlier than their other contemporaries going in for the degree course. The decision now taken will mean that a better qualification is a disqualification, so far as servic in concerned. This will create some discontent amongst graduat overseers, who can put in abt. 3 years' service at the most in case they desire to pass thro: while within the prescribed age limit.

This does not seem to be correct.

5. Orders are requested whether the decision already taken should stand. If so, the revised draft put up for aprov-

approval may issue.

These papers relate to the selection of Overseers for filling in permanent posts of overseers in the S.S.E. Cadre.

2. The Selection Committee appointed for the purpose has recommended appointment of 30 candidates and the question under consideration is how to fix the inter se seniority of these 30 candidates. Please see in this connection the decisions at pp. 28-29 and 31-33 ante.

3. It is presumed that intention underlying the C.E.'s note, dt. 14.6.52 is to maintain the present position in the Deptt'. and it is not the intention of the C.E. to fix the seniority of the sucessful candidates on the basis of length of service, irrespective of the pay drawn by them. If it is so, the present pay in the Deptt. and the date of next increment will be the deciding factors. On the basis of information furnished by the local officers in these respects a statement is prepared as at pp. 37-38 ante. (In the case of D.C.E.s, the dates of next increments have been ascertained from the seniority list of Overseers) On the strength of the above statement a second statement has been prepared (Statement A) and this is the final statement for purposes of fixing the inter se seniority. All the candidates selected (except Shri P.K.Nagarkar, who has resigned from his post) are in Govt. service. They will therefore go in category a(i) of the C.E's note, dt. 14.6.52.

By 'present portion presumably C.E. intends to keep the seniority today which is determined by the leave pay
Id/-

4. In view of the orders issued in G.R.s. No. 9564/36, dt. 14-12-48 and No. 1935/4-8, dt. 14-4-51, graduates in Civil Engineering appointed as temporary overseers were granted higher starting pays upto Rs. 200/- and Diploma holders were allowed pays upto Rs. 116/- p.m. in the sanctioned scale of the S.S.E. These oversers were, however, not allowed increments beyond Rs. 200/- in the case of graduates and Rs. 116/- in the case of diploma

Ht-41c

holders. In view of the orders issued in G.R. 1935/48, dt. 14-4-51, on confirmation the pays of these overseers will have to be refixed. In accordance with the existing orders, a graduate overseer on permanent establishment starts on Rs. 132/- and a diploma holder ~~is~~ on Rs. 80/- p.m., i.e. the minimum of the S.S.E. Scale. As stated earlier, the 30 candidates selected are already working in this Deptt. for a number of years. The question of probationary period does not arise in their case in view of item 4 of the 'Notice' accompanying G.R. No 2159/48, dt. 30-1-52.

5. The only difficulty, which now presents with regard to the seniority as now fixed is in regard to the marginally noted 3 overseers.

Shri V.R. Mariha-lli B.E. (vi)
Shri P.R. B.E. (27).
Shri. N.L. +Soneji (29)

These overseers are graduates in Civil Engineering. Having recruited in 1952, they were not granted by the S.E., E.I.C. and the S.E., B.C. higher starting pays. They were recruited on Rs. 132/- i.e. the basic pay admissible to a graduate overseer. On confirmation, these 3 graduates will also be entitled to the same rate of pay while diploma holders, who are at present senior to them will be starting on Rs. 80/-p.m. As seniority in the S.S.E. cadre is based on pay, these 3 graduate overseers will automatically go above all the D.C.E.s. This will again disturb the seniority as now proposed. To overcome this difficulty, it appears that seniority of these 3 overseers may be fixed between Shri P.P:Joshi (18) and Shri C.P.Thite (19).

I agree.
Id/-

7. The question now arises as to how to regulate the present pays of these subordinates. According to para. 5 of the 'Notice' accompanying G.R. of 30th Jan. 1952, the starting pays will be Rs. 132/- p.m. for B.E.s. and Rs. 80/- p.m. for D.C.E.s.The over seers who have been selected for confirmation have put up in a number of years service. The main object in putting an embargo on pay of these persons on confirmation was that each case should be

considered .....

considered by Govt. at the time of promotion. The object was also that no overseer should get more pay than he would have been entitled to had he continued in service from the beginning. If the pays of these overseers are restricted to the minimum admissible, there will be more hardship as in some cases the pay will be subject to a reduction of Rs. 68/- p.m. This hardship can be minimised if it is laid down that the overseers in statement "A" should be allowed to retain their existing pays as basic pay ~~pp~~ of Rs. 132/- (or Rs. 80) plus personal pay to be absorbed in future increments. The seniority of the overseers will be fixed on the Circle basis on their basic pay and not on their basic pay plus personal pay. When this is done, all graduates, whose cases are now under consideration will for purposes of seniority start on Rs.132/- and diploma holders on Rs. 80/-

8. If the proposals made in the foregoing paras. are approved, the F.D. may see these papers u.o. so far question as regards pays is concerned. As the result of the exam is delayed for long orders as regards seniority may issue first.

9. For orders.

(1) The result may be declared as it is delayed too long.

(2) Regarding the inter se seniority, it has to be based on the basic pay on confirmation.

(3) Pay on confirmation will be worked out by the S.E.s. as per rules prevailing. I do not think it quite correct that a temporary ~~overseer~~ who has put in service for a number of years, he should be allowed to start from the starting salary in the scale on confirmatipn.

The equitable course would be to calculate the pay arranging the ~~answer~~ started on the starting salary

and carried the increments corresponding to his length of service. This will be the 'real' ~~pay~~ pay on the temporary establishment and will not take into account the higher starting salaries approved. This 'real' pay will be the basis for giving the pay on confirmation.

Id/-
20-9-52.

(i) The pays of subordinates who are already in service should be fixed as per rules when a temporary hand is taken on permant establishment, giving him his credit for his temporary ~~service~~ service. His pay on temporary establishment for this purpose should be the pay as at A in the Dy. Secy's note.

(ii) Outsiders start on starting pay of the grade.

I think this will be ~~for~~ fair to everybody.

Finance Department (VIII).

F.D. is concerned with the proposal regarding fixation of pay of temporary overseers who have been selected to fill in the permanent posts of overseers in the S.S.E cadre by virtue of their having pased the competitive examination recently conducted by the Selection Committee, consisting of C.E., P.W.D., two. Supdtg. Engrs. and Director of Technical Education- vide G.R. P.W.D. No. 2159/48, dated 30-1-1952. The P.W.D. proposal in this respect is that, contained in para. (i) of the C.E.(I)'s

note dated 20-9-1952. It may be pointed out that when a person on temporary establishment is brought on za permanent establishment, his pay is subjected to a 16% cut. The present pays of these overseers are given in the statement at pages 37-38 ante. These pays are not the real pays of the overseers in the sense that they were not earned by them on the basis of length of their service. They represent the higher starting pays admissible under G.R. P.W.D. No. 9564/36 dated 14-12-1948. The D.S. P.W.D. has surggested a method in which the real pays of overseers on temporary establishment should be worked out. His suggestion has been concurred in by the C.E. (I) and Secy. P.W.D. The sugestion appears to be fair and reasonable and may be accep ted in F.D. It is presumed that the "real pay" thus arrived at will be ~~regulated un~~ subjected to a 16% cut. The net pay so arrived at will be regualted under B.C.S.R. 51 which fact should be brought out in the orders to be issued on the point. The P.W.D. may be advised accordingly.

P.W.D.

2. These papers deal with the question of fixation of pay of the candidates recruited to the guaranteed post s in the S.S.E. The question has been dealt with in the O.Ns. refd. to above. This Deptt. had suggested that the individuals may be given credit for the p-ast service in the Deptt., while according to general orders those who are recruited to guaranteed posts are to be started on Rs. 132 and Rs. 80, as the case may be. The F.D. proposes that there is no objection to accept the proposal provided the cut of 16% is applied in their cases. Besides, the F.D. also desires that it should be made clear in the orders that the pays thus arrived at are fixed under B.C.S.R. 51.

No. 4051/36 E(II), dt. 23-12-46 should anologically apply in the case of tempy. overseers made permanent after 1-1-47 and that the service rendered prior to 1-1-47 and that rendered after 1-1-47 should be reduced according to the formula laid down in the note accompanying G.L. No. 4051/36-E(II), dt. 23-12-46 These orders were issued in consultation with the P. & S.D. and the F.D.

3. According to para. 2(a) of G.C.M. No. 2648/36, dt. 25-9-41, the starting pay of a tempy. overseer on promotion to the S.S.E. is to be fixed (a) by reducing his tempy. service by one year in every five years and calculating his pay on the basis of this reduced period of serice or (b) by reducing his tempy. pay by 16%, whichever is less. (In G.L. No. 4051/36-E(II), dt. 22-11-44, it was directed that the deduction of one year in every five years should be made proportionately to the exact period.).

4. This Deptt. has proposed that the pays of the 30 individuals (who are all recruited after 1947) may be fixed at the rates of pays they would have drawn had they started on the minimum pays admissible to them, viz. Rs. 132 in case of B.Es. and Rs. 80 in case of D.C.Es. The F.D. has, however, suggested that as in the case of other tempy. staff of P.W.D., the pays admissble may be reduced further by applying 16% cut.

5. It is felt that the formula suggested will adversely affect the pays of the overseers concerned inasmuch as that it will not only erase the element of higher pays they have enjoyed for last five to six years but it will further reduce their pays on the application of the 'two-way' cut

(both in calculation of pay and service) as adopted in the formula. The statement put up will show the pay an individual may draw in accordance with the orders governing fixation of pay of a tempy. overseer, promoted to a permanent post that in accordance with the proposal made by this office-and as per method suggested by the F.D. In the circumstances, it is for consideration whether this Deptt. may adhere to its view since the case is that of overseers recruited to guaranteed posts and not of temp-y. personnel promoted to the permanent post.

6. The F.D. may see u.o.

2. Please see the orders issued in G.L. P.W.D. No. 4051/36-E(II) dt. 23-12-1946 and the proceedings underlying them. We may agree, that the pay of tem. overseer, on promotion to the S.S.E. may be fixed, (a) by reducing his temp. service by one year, in every five years. and calculating his pay on the basis, of this reduced period of service or (b) by reducing his temp. pay by 16% whichever is less. Further purpose, of (a) above, the overseers should be deemed to have started on Rs. 80 p.m. if he is a Diplomate, and on Rs. 132 p.m. if he is a Graduate in the scale of Rs. 80-5-100-8-140 E.B.-10-220-E.B.-10-270.

'E'

Submitted with refce. to this Deptt. U.O.Rs. dated the 4-12-1952 and 20-6-1953.

2. This Deptt. proposal to fix pays of the 30 overseers mentioned in Govt. Letter, No. 2159/48-III-F, dated the 17-10-1952 who have been recruited to guaranteed posts in the S.S.E. cadre at pays they would have drawn had they started on the minimum pays admissible to them, viz., Rs. 132/- in case of B.Es. and Rs. 80/- in case of D.C.Es. has not been fully agreed to by the Fin. Deptt. That Deptt. has, however suggested that the pays of these overseers may be fixed as under:-

(a) By reducing their tempy. service by one year in every five years and calculating their pays on the basis of this reduced period of service

or

(b) By reducing their tempy. pays by 16% whichever is less.

For the purpose of (a) above the overseers should be deedmed to have started on Rs. 80/-P.M. if they are Diplomates and on Rs. 132/- P.M. if they are Graduates in the scale of Rs. 80-5-100-8-140-E.B.,-10-220-E.B.-10-270. In short the Fin. Deptt. has agreed to formula I at page 53 ante, which is based on the orders issued in Govt. Letter P.W.D., No.4051/36, dated the 23-12-1946. It is presumed that the deduction of one year in every five years is to be made proportionately to the exact period and the dates of the increments of the overseers, are to remain unchanged.

3. The draft put up for approval may issue, after U.O.R. to the Fin. Deptt. with refce. to 'A' above.

2. The requisite information in the case of Overseers referred to in the Government letter under reference is submitted in the enclosed statement.

3. The information in respect of Shri G.Raghavendrachar, Overseer has also been included in the statement as desired in Superintending Engineer, Southern Circle's letter No.C-40 dated 16-6-1952.

4. These Overseers having been trained on Irrigation Projects from the begining in this Circle, they have acquired good experience in disigning and preparing plans and estimates in connection with Irrigation Projects. Being well acquainted with the local conditions, the overseers will naturally be more useful in this Circle than any other Circle. One of them was also sent to Tungabhadra for collecting information of Aqueducts. Moreover, if other overseers who are not experienced in Irrigation Projects and works are not posted to this Circle in their place, it would be a great handicap to the works in this Circle, as the new overseers will take some time to get themselves acquainted with the designing and construction of Irrigation works. I, therefore, request that if the Overseers mentioned in the statement are selected for being taken up on the permanent Establishment, they may please be posted to the Karnatak Irrigation Circle, only in the interest of works.
